## ■ TCDH Series 3 in 1 Compact Dehumidifying Dryers

### Features

- 3 in 1 compact dehumidifying dryers are equipped with honeycomb rotor which can acquire stable low dew-point drying air.
- To integrate the function of dehumidifying , drying and two-stage conveying into single unit. Three- stage conveying function is optional.
- Double- wall insulated hopper dryers features down-blowing pipe design to avoid heat dispersion for improving drying efficiency.
- The dehumidifying system employ double coolers for ensuring lower return air temperature and dew-point value.
- Feeding system is equipped with shut-off valve to ensure no remaining material in hopper tube.

- Optical-class models use mirror polished treatment on the material contact surface to avoid material contamination and collocate feeding system with closed - loop in order to avoid the possibility of moisture regain for absorbing outside air during material conveying .
- Multiple safety protection device.
- To adopt P.I.D temperature controller to accurately control regenerative temperature to ensure dew-point stable.
- Return air filter is installed inside to ensure no powder & dust contamination to the honeycomb rotor.
- Using imported superb parts which enhance function and extend service life for saving maintenance cost.
- Powder coated frame of machine with exquisite appearance.
