## TGP Series Powerful Granulators

### Features

- All models are suitable for granulating big & different material & different shape of defect plastic parts, can be collected to granulate together for recycling use.
- The motor is equipped with overload protector & interlock power protection safety device & granulator is equipped with cleaning cutter protection safety device for ensuring operators' safety.
- Cutters are made of SKD-11 with long service life.
- The standard screen mesh size for 10HP & below is 8mm; for 15HP & above is 10mm. Other spec can be customized according to customers' requirements.

- Unique design realizes that the power is smallest but the efficiency is highest. It is also equipped with double-silencer to achieve low noise.
- Feeding hopper and screener need to be made of stainless steel in order to avoid painting peeling off to make material contamination for effecting color.
- Easy disassembly design - feeding hopper, cutters and screener easily dismantle for cleaning.
