Technical Data

Charater control

- Character width and height adjustment
- Auto repeat
- Auto invert/reverse
- User defined clock format
- Print delay
- Sequential/batch numbering
- Barcodes
- Inversereverse and bold characters
- Product counter - Message repeat

Interface

Shaft Encoder : TTL voltage level or collector, 5V-24V
 Product Detector : PNP or NPN collector, 5V-24V
 Warning Set : External 24 volt
 Communication : RS232 socket

Cabinet

Weight : 14 Kg.
 Cabinet Material : Stainless steel
 IP Rating : 55
 Dimention : 340mm*440mm*295mm
 Power : 53W

Printhead

Type : middle/small type nozzle
 Nozzle Size : 60 μm
 Nozzle Material : Gem
 Conduit Length : 2m/4m

Ink system

Ink Drive : inner gear
 Viscosity Control : auto control
 Nozzle clean : auto control
 Ink type : multi color dye-based ink

Environment

Operating Temperature :
 -5°C ~ +45°C(40-170°F)
 Humidity : 10% to 90%
 Power Supply : 90-130V,
 180-260, 50/60HZ

MX Series

Unique Advantage

Parameters	MX2	MX3	MX4	MX2-H
Font Matrix	16 dots	24 dots	32 dots	16 dots
Lines of Print	1-2 Lines	1-3 Lines	1-4 Lines	1-2 Lines
Upgrade	32 dots	32 dots	32 dots	32 dots
Option	1-4 Lines	1-4 Lines	1-4 Lines	1-4 Lines
Message Height	1.3-1.5mm	1.3-1.8mm	1.3-25mm	1.3-15mm
Cabinet Material	SUS304			
IP Rating	IP55			
Conduit Length	2m/4m			
Printing Direction	360° any direction			
Printing Back & Forth	Support			
Logo Printing	U-disk imported/system edit			
Options	U-disk data/anti-counterfeiting system			
RS232	Option			

Features

- Multi color ink option (black, red, blue)
- Steady and reliable ink system, Simple structure, low maintenance
- Simple operation interface
- Powerful system, U-disk storage, one key upgrade
- Auto cleaning function, ink system will not easy block
- Gem nozzle, complete airproof printhead, steady and reliable
- Printhead Unique constant temperature heating technology, better printing quality
